Our dietetic internship program is made up of supervised practice hours and alternate practice experiences in clinical dietetics, food service management and community nutrition through evidence-based competencies to improve the health outcomes of our nation's growing diverse Veteran and civilian population!

- 18-month combined MS/DI program including 42-week internship combined with a fully-online 30-credit hour Master of Science degree in partnership with the University of Alabama
- 42-week Dietetic Internship only option for applicants with a completed graduate degree

## PROGRAM HIGHLIGHTS

- Preceptor-to-intern ratio of 1:1 or 1:2 for individualized support
- Opportunity to work with advanced practice dietitians in specialized areas
- Obtain graduate degree within 6 months of completing supervised practice hours to meet qualification for RDN exam
- Provides stipend allowance during DI program year
